### Editorial Review

#### Amazon.com Review

"Scuttling down the mountain with the thing on his back he looked like a man beset by some ghast succubus, the dead girl riding him with legs bowed akimbo like a monstrous frog." *Child of God* must be the most sympathetic portrayal of necrophilia in all of literature. The hero, Lester Ballard, is expelled from his human family and ends up living in underground caves, which he peoples with his trophies: giant stuffed animals won in carnival shooting galleries and the decomposing corpses of his victims. Cormac McCarthy's much-admired prose is suspenseful, rich with detail, and yet restrained, even delicate, in its images of Lester's activities. So tightly focused is the story on this one "child of God" that it resembles a myth, or parable. "You could say that he's sustained by his fellow men, like you.... A race that gives suck to the maimed and the crazed, that wants their wrong blood in its history and will have it."
