### Editorial Review

#### Amazon.com Review

**An Amazon Best Book of the Month, October 2014:** Over a decade since the last installment of the Vampire Chronicles, Anne Rice's *Prince Lestat* reignites the love affair with the quixotic nosferatu who inspired writers, readers and Hollywood filmmakers. The newly resurrected, but no less rebellious, Lestat addresses a mysterious twenty-first century vampire genocide with the same panache, self-absorption, and drama readers have come to know and love. Rice masterfully populates the present-day storyline with a cast of characters from her previous novels along with new blood, so to speak, and reading this book is like seeing old friends whom you'd sort of forgotten about, but are thrilled to meet again—even if you are reading about them for the first time. *Prince Lestat* raises interesting questions about the boundaries of science, conflicting beliefs, and a universal need to belong; a welcome return to a narrative that spawned an entire subgenre of fiction. —Seira Wilson
