Hydrology in Practice, Fourth Edition By Elizabeth M. Shaw, Keith J. Beven, Nick A. Chappell, Rob Lamb

Hydrology in Practice is an excellent and very successful introductory text for engineering hydrology students who go on to be practitioners in consultancies, the Environment Agency, and elsewhere.

This fourth edition of **Hydrology in Practice**, while retaining all that is excellent about its predecessor, by Elizabeth M. Shaw, replaces the material on the *Flood Studies Report* with an equivalent section on the methods of the *Flood Estimation Handbook* and its revisions. Other completely revised sections on instrumentation and modelling reflect the many changes that have occurred over recent years. The updated text has taken advantage of the extensive practical experience of the staff of JBA Consulting who use the methods described on a day-to-day basis. Topical case studies further enhance the text and the way in which students at undergraduate and MSc level can relate to it. The fourth edition will also have a wider appeal outside the UK by including new material on hydrological processes, which also relate to courses in geography and environmental science departments. In this respect the book draws on the expertise of Keith J. Beven and Nick A. Chappell, who have extensive experience of field hydrological studies in a variety of different environments, and have taught undergraduate hydrology courses for many years.

Second- and final-year undergraduate (and MSc) students of hydrology in engineering, environmental science, and geography departments across the globe, as well as professionals in environmental protection agencies and consultancies, will find this book invaluable. It is likely to be the course text for every undergraduate/MSc hydrology course in the UK and in many cases overseas too.

Chappell** are in the Lancaster Environment Centre at the University of Lancaster, UK. **Rob Lamb** is a consultant with JBA Consulting.

Users Review

From reader reviews:

Jennifer Darby:

Do you have favorite book? If you have, what is your favorite's book? Guide is very important thing for us to find out everything in the world. Each book has different aim or goal; it means that e-book has different type. Some people truly feel enjoy to spend their the perfect time to read a book. They are really reading whatever they take because their hobby is reading a book. What about the person who don't like reading a book? Sometime, individual feel need book after they found difficult problem or maybe exercise. Well, probably you will require this Hydrology in Practice, Fourth Edition.

Eileen Smith:

People live in this new time of lifestyle always try and and must have the extra time or they will get large amount of stress from both way of life and work. So , when we ask do people have time, we will say absolutely yes. People is human not really a huge robot. Then we question again, what kind of activity do you have when the spare time coming to you of course your answer will unlimited right. Then do you try this one, reading textbooks. It can be your alternative in spending your spare time, often the book you have read is usually Hydrology in Practice, Fourth Edition.

Bertram Staten:

Reading can called mind hangout, why? Because if you find yourself reading a book particularly book entitled Hydrology in Practice, Fourth Edition your thoughts will drift away trough every dimension, wandering in each and every aspect that maybe unidentified for but surely can become your mind friends. Imaging just about every word written in a e-book then become one form conclusion and explanation this maybe you never get previous to. The Hydrology in Practice, Fourth Edition giving you yet another experience more than blown away your head but also giving you useful data for your better life within this era. So now let us demonstrate the relaxing pattern this is your body and mind will be pleased when you are finished reading it, like winning a casino game. Do you want to try this extraordinary spending spare time activity?

Ruth Paiz:

Hydrology in Practice, Fourth Edition can be one of your starter books that are good idea. Most of us recommend that straight away because this publication has good vocabulary that will increase your knowledge in words, easy to understand, bit entertaining but nevertheless delivering the information. The writer giving his/her effort to get every word into pleasure arrangement in writing Hydrology in Practice, Fourth Edition but doesn't forget the main position, giving the reader the hottest along with based confirm resource data that maybe you can be one among it. This great information can draw you into brand-new stage of crucial thinking.
