Laboratory Manual for Anatomy & Physiology featuring Martini Art, Cat Version (6th Edition) By Michael G. Wood

For two-semester A&P lab courses.

Stunning Visuals and Accessible Tutorials Engage Students in the A&P Lab

The **Wood, *Laboratory Manual for Anatomy & Physiology featuring Martini Art, Sixth Edition*** is a valuable resource for engaging students in the lab, introducing them to applications, and preparing them for their future careers. The **Sixth Edition** teaches effective drawing techniques to promote critical thinking and ensure lasting comprehension. This comprehensive lab manual features more than 100 new photos that walk students through core lab processes, lab equipment, and animal organ dissections, as well as art that is adapted from Ric Martini's ***Fundamentals of Anatomy & Physiology, Tenth Edition***. It is available in three formats: Main, Cat, and Pig Versions. The Cat and Pig manuals are identical to the Main Version, with nine additional cat or pig dissection exercises.

Note: You are purchasing a standalone product; MasteringA&P does not come packaged with this content. Students, if interested in purchasing this title with MasteringA&P, ask your instructor for the correct package ISBN and Course ID. Instructors, contact your Pearson representative for more information.

Editorial Review

Review

"To help students remain focused and organized, I prefer the lab manual to emphasize lab activities/procedures. I find the photos and illustrations accompanying the procedures very helpful to the students. The lab reinforces lecture materials and provides students an opportunity for honing critical thinking and analytical skills."

-Andrea Dodge, North Shore Community College

"[Including the "Review and Practice Sheets in MasteringA&P] is a great idea. It will make the integration of lecture and lab much easier."

-Amir Afshar, Bucks County Community College

About the Author

Michael G. Wood is a Professor of Biology at Del Mar College in Corpus Christi, Texas, where he has taught anatomy and physiology and biology for over 20 years. He has received the “Educator of the Year” and “Teacher of the Year” awards from the Del Mar College student body and from the local business community. He received his M.S. in 1986 at Pan American University, now the University of Texas at Pan American, where his research examined the ecological impact of an introduced species used widely in aquaculture (the blue tilapia) on the native fish population in the Rio Grande drainage of South Texas. He is a member of the Human Anatomy and Physiology Society (HAPS).

Users Review

From reader reviews:

Michelle Carlson:
