The Sony A7 II: The Unofficial Quintessential Guide By Brian Matsumoto, Carol F. Roulland

In this book, authors Brian Matsumoto and Carol F. Roulland offer a wealth of experience-based information and insights on the Sony a7 II, a full frame, autofocus system camera. This guide will help the new owner navigate past the confusion that often comes with using complex, powerful photographic equipment.

Brian and Carol explore the features and capabilities of the Sony a7 II in a way that far surpasses the users manual. Every feature of the camera is covered, from basic automated controls to advanced photographic applications, including automatic stitching to create panoramas and multi-shot noise reduction that allows the use of extremely high ISOs. Included are tips for set-up according to various shooting styles.

The richly illustrated text and step-by-step instructions guide the reader on how and why to set each menu command. Every button, dial, switch, and menu configuration is discussed.

The Sony a7 II: The Unofficial Quintessential Guide will help you take control of your camera, push the envelope, and take photographs that are a unique reflection of your own creative personality.

Editorial Review

About the Author

Dr. Brian Matsumoto is a retired research scientist who has worked for 30 years documenting experiments with technologically advanced cameras. He now spends his time photographing with a variety of cameras and lenses, and is interested in expanding a camera's potential by pairing it with specialized optics such as microscopes and telescopes. He enjoys spending time outdoors and carries his camera on all of his hikes to photograph nature. In addition to the nine books he has written for Rocky Nook, Dr. Matsumoto has published several articles and has had his photographs published in a number of periodicals. His photographs have also appeared on the covers of American Laboratory, BioTechniques, and BioPhotonics. He is experienced in the technical aspects of photography and is an adjunct instructor for the Hooke College of Applied Sciences. Dr. Matsumoto recently served as a judge for the Olympus BioScapes International Digital Imaging Competition.

Carol F. Roullard has been an avid photographer since her high school years when she first experimented with black-and-white artistic composition. Since then, she has continued photographing mainly nature and architecture. Ms. Roullard has used a variety of cameras covering a wide range of makes and models, from simple point-and-shoot to complex professional-level cameras. In addition to co-authoring eight books for Rocky Nook, Ms. Roullard produces award-winning fine art photography and utilizes her previous art business experience to manage her online gallery and present her work at art shows. Recently, Ms. Roullard has begun giving speeches for writers and photography associations. As a former Project Management Quality and Compliance Engineer, Carol spent a number of years developing procedural and quality control methodology for IT projects. In addition, she has developed and conducted training sessions covering best practices for procedural and quality control, breaking down complex subjects into easy-to-use approaches to learning.

Users Review

From reader reviews:

Jeremy Clayton:
