Integrated Science By Bill W Tillery, Eldon Enger, Frederick C Ross

Integrated Science, Sixth Edition is a straightforward, easy-to-read, yet substantial introduction to the fundamental behavior of matter and energy in living and nonliving systems. The authors provide even, well-integrated coverage of physics, chemistry, earth science, astronomy, and biology. The text's pedagogy (chapter outlines, core concept maps, and overviews) reveals how the science disciplines are interrelated and integrated throughout the text.

This edition continues to introduce basic concepts and key ideas while providing opportunities for students to learn reasoning skills and a new way of thinking about their environment. Additional content has been added to this edition, including a discussion of "Scientific Communication" to chapter 1, "Simple Machines" to chapter 3, and "efficiency" to chapter 4.

The book is intended to serve the needs of non-science majors who are required to complete one or more science courses as part of a general or basic studies requirement. No prior work in science is assumed. The language, as well as the mathematics, is as simple as can be practical for a college-level science course.

Editorial Review

About the Author

Eldon is an emeritus professor of biology at Delta College. He has over 30 years of teaching experience in biology, zoology, and environmental science. Eldon has been a Fulbright Exchange Teacher in Australia and Scotland, received the Bergstein Award for Teaching Excellence at Delta College, and participated in an Earthwatch Research Program in Costa Rica. In addition to the environmental science text, Eldon is co-author of the very successful CONCEPTS IN BIOLOGY general biology text with McGraw-Hill.

Users Review

From reader reviews:

Marilyn Daniels:

Book is to be different per grade. Book for children till adult are different content. To be sure that book is very important usually. The book Integrated Science has been making you to know about other understanding and of course you can take more information. It is rather advantages for you. The publication Integrated Science is not only giving you a lot more new information but also to become your friend when you feel bored. You can spend your personal spend time to read your publication. Try to make relationship together with the book Integrated Science. You never experience lose out for everything in case you read some books.

Susan Scott:

Reading can called brain hangout, why? Because if you are reading a book mainly book entitled Integrated Science your mind will drift away trough every dimension, wandering in each aspect that maybe unidentified for but surely will end up your mind friends. Imaging every word written in a e-book then become one type conclusion and explanation which maybe you never get ahead of. The Integrated Science giving you one more experience more than blown away your thoughts but also giving you useful details for your better life on this era. So now let us explain to you the relaxing pattern this is your body and mind will probably be pleased when you are finished looking at it, like winning a casino game. Do you want to try this extraordinary wasting spare time activity?

Wilma Bates:

As we know that book is significant thing to add our expertise for everything. By a book we can know everything we wish. A book is a group of written, printed, illustrated as well as blank sheet. Every year had been exactly added. This guide Integrated Science was filled with regards to science. Spend your free time to add your knowledge about your research competence. Some people has different feel when they reading a new book. If you know how big selling point of a book, you can sense enjoy to read a book. In the modern era like today, many ways to get book that you wanted.

James Sanchez:

That book can make you to feel relax. That book Integrated Science was multi-colored and of course has pictures on there. As we know that book Integrated Science has many kinds or type. Start from kids until teens. For example Naruto or Detective Conan you can read and believe you are the character on there. So , not at all of book tend to be make you bored, any it can make you feel happy, fun and loosen up. Try to choose the best book for you personally and try to like reading that will.
