Reader in Gender Archaeology (Routledge Readers in Archaeology) From David S Whitley

This *Reader in Gender Archaeology* presents nineteen current, controversial and highly influential articles which confront and illuminate issues of gender in prehistory. The question of gender difference and whether it is natural or culturally constructed is a compelling one. The articles here, which draw on evidence from a wide range of geographic areas, demonstrate how all archaeological investigation can benefit from an awareness of issues of gender. They also show how the long-term nature of archaeological research can inform the gender debate across the disciplines. The volume:

- * organizes this complex area into seven sections on key themes in gender archaeology: archaeological method and theory, human origins, division of labour, the social construction of gender, iconography and ideology, power and social hierarchies and new forms of archaeological narrative
- * includes section introductions which outline the history of research on each topic and present the key points of each article
- * presents a balance of material which rewrites women into prehistory, and articles which show how the concept of gender informs our understanding and interpretation of the past.

Editorial Review

Review

"David Whitley has assembled a very fine guide to the ideas that are changing archaeology. This book shows that we have surmounted the limitations of the new archaeology by presenting a colorful variety of new and older scholars who contribute to understanding mind and meaning from past cultures."

-Mark Leone, University of Maryland, USA

About the Author

Kelley Hays-Gilpin is Assistant Professor of Anthropology at Northern Arizona University. **David S. Whitley** is the US representative of ICOMOS and lectures at UCLA.

Users Review

From reader reviews:

Scottie Hicks:

Now a day people that Living in the era where everything reachable by connect with the internet and the resources within it can be true or not require people to be aware of each details they get. How individuals to be smart in obtaining any information nowadays? Of course the answer then is reading a book. Studying a book can help men and women out of this uncertainty Information specifically this Reader in Gender Archaeology (Routledge Readers in Archaeology) book because book offers you rich information and knowledge. Of course the knowledge in this book hundred per cent guarantees there is no doubt in it you know.

Doris Moreno:

This Reader in Gender Archaeology (Routledge Readers in Archaeology) is great publication for you because the content that is full of information for you who also always deal with world and have to make decision every minute. This particular book reveal it info accurately using great coordinate word or we can point out no rambling sentences inside it. So if you are read the item hurriedly you can have whole facts in it. Doesn't mean it only gives you straight forward sentences but tough core information with splendid delivering sentences.
