## **Editorial Review**

From Publishers Weekly

Starred Review. In James's stellar 14th Adam Dalgleish mystery (after 2006's *The Lighthouse*), the charismatic police commander knows the case of Rhoda Gradwyn, a 47-year-old journalist murdered soon after undergoing the removal of an old disfiguring scar at a private plastic surgery clinic in Dorset, may be his last; James's readers will fervently hope it isn't. Dalgleish probes the convoluted tangle of motives and hidden desires that swirl around the clinic, Cheverell Manor, and its grimly fascinating suspects in the death of Gradwyn, herself a stalker of minds driven by her lifelong passion for rooting out the truth people would prefer left unknown and then selling it for money. Beyond the book's central moral concern, James meditates on universal problems like aging (the amorphous flattening of self) and the government's education policy, which targets 50% of the young as university-bound while ensuring that another 40% are uneducated on leaving secondary school. Against her relentless intellectual view of our dying earth, James pits the love she finally grants Dalgleish—sufficient to reinvigorate hope and faith so rare in both fiction and reality today. Both P. D. James and Adam Dalgleish, both in their 80s, have aged like fine wine. Critics agreed that if *The Private Patient*, a closed-room mystery, is not among the best in the series, it nonetheless outranks most crime fiction. James brings her usual intellect to bear on this novel: literary references and philosophical discussions; an elegant, leisurely style; a highly atmospheric setting; suspicious distant relatives; and meaningful coincidences. Reviewers diverged, however, on the characterization and plotting. Some thought the characters were psychologically complex, while others thought they—along with the plot—were "reduced to a kind of box-ticking" (*Guardian*). Finally, Dalgleish didn't seem completely present—perhaps in anticipation of his imminent retirement and marriage.

At 88, P. D. James has written her eighteenth novel, a feat in itself. Inevitably, there is plenty of summing up going on here, as Commander Adam Dalgleish approaches marriage and contemplates retirement from Scotland Yard. But before either of those life-changing events can take place, there is another case to solve, and Dalgleish's special investigating team, their murder bags packed, are on the road to a remote corner of Dorset, where a well-known investigative journalist has been killed following surgery at a private clinic. As usual, James places Dalgleish, Inspector Kate Miskin, and Sergeant Francis Benton-Smith within an insular community and asks them to restore order to a tightly circumscribed world jarred by unnatural death. We follow the process of interviews with the staff at Cheverell Manor, a grand Tudor home converted to a clinic by a famous plastic surgeon, and we once again begin to formulate our list of suspects along with Dalgleish and the team. This time, though, James pays a bit less attention to the lives of the suspects and more to Dalgleish's inner turmoil (and, to some extent, that of Miskin and Benton-Smith). Longtime readers will be fine with this subtle switch in emphasis, as we sense the winding down of the landmark series and crave every possible insight into a character who has meant so much not only to his fans but also to the mystery genre itself. If this is the last Dalgleish novel, James has struck a fine valedictory note for her hero. --Bill Ott
