**In Pursuit of the Unknown: 17 Equations That Changed the World** By Ian Stewart

Most people are familiar with history's great equations: Newton's Law of Gravity, for instance, or Einstein's theory of relativity. But the way these mathematical breakthroughs have contributed to human progress is seldom appreciated. In *In Pursuit of the Unknown*, celebrated mathematician Ian Stewart untangles the roots of our most important mathematical statements to show that equations have long been a driving force behind nearly every aspect of our lives. Using seventeen of our most crucial equations—including the Wave Equation that allowed engineers to measure a building's response to earthquakes, saving countless lives, and the Black-Scholes model, used by bankers to track the price of financial derivatives over time—Stewart illustrates that many of the advances we now take for granted were made possible by mathematical discoveries. An approachable, lively, and informative guide to the mathematical building blocks of modern life, *In Pursuit of the Unknown* is a penetrating exploration of how we have also used equations to make sense of, and in turn influence, our world.

### **Users Review**

#### **From reader reviews:**

##### **Hans Diaz:**

Spent a free time for you to be fun activity to accomplish! A lot of people spent their leisure time with their family, or their own friends. Usually they accomplishing activity like watching television, gonna beach, or picnic from the park. They actually doing same thing every week. Do you feel it? Do you want to something different to fill your current free time/ holiday? Might be reading a book is usually option to fill your free time/ holiday. The first thing that you'll ask may be what kinds of reserve that you should read. If you want to try out look for book, may be the book untitled In Pursuit of the Unknown: 17 Equations That Changed the World can be good book to read. May be it is usually best activity to you.

##### **Marie Boyd:**

Typically the book In Pursuit of the Unknown: 17 Equations That Changed the World has a lot of knowledge on it. So when you make sure to read this book you can get a lot of gain. The book was authored by the very famous author. This articles author makes some research prior to write this book. That book very easy to read you can get the point easily after reading this book.

##### **Monica Bonner:**

It is possible to spend your free time to study this book this book. This In Pursuit of the Unknown: 17 Equations That Changed the World is simple to create you can read it in the park your car, in the beach, train and also soon. If you did not get much space to bring the printed book, you can buy the e-book. It is make you better to read it. You can save the particular book in your smart phone. Therefore there are a lot of benefits that you will get when you buy this book.

##### **Abigail Shelton:**

You can obtain this In Pursuit of the Unknown: 17 Equations That Changed the World by check out the bookstore or Mall. Simply viewing or reviewing it could to be your solve difficulty if you get difficulties for the knowledge. Kinds of this publication are various. Not only simply by written or printed but additionally can you enjoy this book simply by e-book. In the modern era such as now, you just looking of your mobile phone and searching what their problem. Right now, choose your own personal ways to get more information about your reserve. It is most important to arrange yourself to make your knowledge are still revise. Let's try to choose suitable ways for you.
