Lightweight Ballistic Composites: Military and Law-Enforcement Applications (Woodhead Publishing Series in Composites Science and Engineering) From Brand: Woodhead Publishing

Ballistic composites need to be lightweight and durable as well as exhibiting high impact resistance and damage tolerance. This important book reviews these requirements, how the materials used for ballistic composites meet them and their range of applications.

After an introductory chapter, Lightweight ballistic composites is split into two main sections. The first part of the book explores material requirements and testing. There are chapters on bullets and bullet fragments, material responses to ballistic impact, standards and specifications, modelling and test methods. Part Two reviews the range of materials used, production methods and applications. Topics discussed include high-performance ballistic fibres and ceramics, non-woven ballistic and prepreg composites, and their uses in body armour, vehicle and aircraft protection.

This major book is the first of its kind to give a comprehensive review of the current use of lightweight ballistic composites in both military and law-enforcement applications. It is an invaluable reference for all those involved in personnel and vehicle protection in defence and police forces around the world.

- Reviews the current use of lightweight ballistic composites in both military and law-enforcement application
- An authoritative overview of the range of materials used, production methods and applications
- Explores material requirements and testing

Editorial Review

About the Author

Dr Ashok Bhatnagar joined Honeywell International Inc. in 1985 and over the last 29 years has developed several lightweight composite ballistic materials and products. He has filed more than 50 patents and has authored more than 40 publications. He has taught at both the Indian Institute of Technology Bombay, India and the Illinois Institute of Technology, Chicago.

Users Review

From reader reviews:

Robert Carlson:

Why don't make it to become your habit? Right now, try to prepare your time to do the important behave, like looking for your favorite e-book and reading a book. Beside you can solve your short lived problem; you can add your knowledge by the publication entitled Lightweight Ballistic Composites: Military and Law-Enforcement Applications (Woodhead Publishing Series in Composites Science and Engineering). Try to stumble through book Lightweight Ballistic Composites: Military and Law-Enforcement Applications (Woodhead Publishing Series in Composites Science and Engineering) as your close friend. It means that it can for being your friend when you sense alone and beside associated with course make you smarter than before. Yeah, it is very fortunated for you personally. The book makes you far more confidence because you can know anything by the book. So , let's make new experience and knowledge with this book.

Melinda Anderson:

This Lightweight Ballistic Composites: Military and Law-Enforcement Applications (Woodhead Publishing Series in Composites Science and Engineering) tend to be reliable for you who want to be a successful person, why. The key reason why of this Lightweight Ballistic Composites: Military and Law-Enforcement Applications (Woodhead Publishing Series in Composites Science and Engineering) can be on the list of great books you must have is usually giving you more than just simple studying food but feed an individual with information that might be will shock your earlier knowledge. This book is definitely handy, you can bring it almost everywhere and whenever your conditions in the e-book and printed kinds. Beside that this Lightweight Ballistic Composites: Military and Law-Enforcement Applications (Woodhead Publishing Series in Composites Science and Engineering) giving you an enormous of experience for instance rich vocabulary, giving you trial run of critical thinking that we all know it useful in your day task. So , let's have it appreciate reading.

Vincent Cartagena:

This Lightweight Ballistic Composites: Military and Law-Enforcement Applications (Woodhead Publishing Series in Composites Science and Engineering) is new way for you who has curiosity to look for some

information since it relief your hunger details. Getting deeper you onto it getting knowledge more you know or you who still having little digest in reading this Lightweight Ballistic Composites: Military and Law-Enforcement Applications (Woodhead Publishing Series in Composites Science and Engineering) can be the light food for you personally because the information inside that book is easy to get by simply anyone. These books build itself in the form that is reachable by anyone, yes I mean in the e-book web form. People who think that in guide form make them feel sleepy even dizzy this reserve is the answer. So there is no in reading a reserve especially this one. You can find what you are looking for. It should be here for an individual. So , don't miss the idea! Just read this e-book kind for your better life and knowledge.

Robert Maas:

Within this era which is the greater man or woman or who has ability in doing something more are more special than other. Do you want to become among it? It is just simple way to have that. What you have to do is just spending your time very little but quite enough to enjoy a look at some books. One of several books in the top collection in your reading list is usually Lightweight Ballistic Composites: Military and Law-Enforcement Applications (Woodhead Publishing Series in Composites Science and Engineering). This book and that is qualified as The Hungry Mountains can get you closer in becoming precious person. By looking upward and review this reserve you can get many advantages.
