## **Editorial Review**

### **Review**

"Although few of Charles Sanders Peirce's writings were devoted explicitly to religious topics, Michael L. Raposa demonstrates that religious ideas played a central role in shaping Peirce's philosophy and are manifest throughout his corpus, in scientific and mathematical papers as well as in his writings on metaphysics, cosmology, and the normative sciences. Because Peirce's religious ideas are continuous with and integral to his reflections on these and other issues, they must be identified and understood if his work as a whole is to be interpreted properly." ?
