Editorial Review

Review

"Substantially updated, this volume will be an invaluable resource; the first edition merits retention for its seminal research in the field. Highly Recommended." - **Choice**

"Denmark and Paludi's (2008) handbook provides a comprehensive perspective on current issues that are central for both academic and clinical psychologists." - **Sex Roles**

"Although great strides have been made in the psychology of women since its conception in the 1970s, the societal conditions that called on feminist researchers to create and nurture the field still exist. Women's subordinate status relative to men still influences several aspects of women's psychological well-being. Therefore, a targeted focus on the psychology of women remains paramount, and *Psychology of Women: A Handbook of Issues and Theories* is a critical tool and useful reference to a comprehensive investigation in this area. Researchers and scholars interested in understanding more about the depths and implications of a psychology of women will be interested in this handbook. It proves an excellent source for a more detailed analysis of many topics unique to the study of women's psychology. Each chapter provides an in-depth analysis that could serve as supplemental reading to a textbook or a comprehensive review of the most recent research on a given topic. The book may also be used as a text for an advanced or graduate seminar in the psychology of women or a reference tool for a teacher or a researcher interested in gaining a deeper understanding of the topic before teaching a unit, guiding a student, or beginning a program of research." - **American Journal of Psychology**

About the Author

Florence L. Denmark is Robert Pace Distinguished Research Professor and Adjunct Professor at the Graduate School in the City University of New York. She is a Fellow of 13 divisions of the American Psychological Association. Her honors include the APA Award for Distinguished Contributions to Psychology in the Public Interest and the APA Gold Medal Award for Lifetime Achievement for Psychology in the Public Interest.
