Piratica II: Return to Parrot Island By Tanith Lee

Art Blastside has dodged the gallows and married her true love. But life ashore is too tame for a pirate queen, so she jumps at the chance to go to sea again. England is at war, and the government wants Art to use her talents against the French. Naval war is horrific, and her arch-nemesis is bent on revenge. What price is Art willing to pay for her life of freedom?

As gripping as the first *Piratica*, which *Kirkus Reviews* praised in a starred review as "a glorious roustabout of a tale," this book proves again why Tanith Lee is one of the world's most popular fantasy writers.

Editorial Review

From School Library Journal

Grade 7 Up—Art Blastside is back, trying unsuccessfully to live a settled life of luxury and marital bliss. The former pirate eagerly agrees to go back to sea, even if it is in the service of her former foe, the English government. Reunited with some of her crew and at the helm of a newly improved *Unwelcome Stranger*, Art sets out to harass and rob enemy ships. She also plans to get her hands on a mysterious green book that holds valuable clues to almost all of the treasure ever carried across the sea. The captain and her crew are dogged by her arch nemesis, Little Goldie Girl, and haunted by the threat of the ethereal black *Widow*, a pirate-hunting vessel manned by Mary Hell. The many plot twists involve fierce battles, treachery, and loves lost and found, and Lee's colorful characters are appealing and unique. Art and crew manage to save the day in an epic and climactic naval battle and secure the treasure to boot. Because the story delves into some elements of adult romance including marital problems and a pregnancy, it is difficult to predict who will relate to this book. Less-sophisticated readers will miss the jabs at pirate wannabes and subtle humor imbedded throughout. Mature readers with a taste for pirate themes and strong female heroines will be heartily entertained.—*Nicki Clausen-Grace, Carillon Elementary School, Oviedo, FL*

From [Booklist](#)

Art, the young pirate queen who first appeared in *Piratica* 2004), returns for more thrilling open-sea adventures, once again set in an alternate world similar to early-nineteenth-century England. After escaping a death sentence, Art, now a folk hero, lives with her husband in celebrity splendor. Still, her sea legs are restless, and when the government asks her to assist with a war, she dons her pirate gear and heads back to sea. Plot contrivances won't deter readers who love rapid-fire, swashbuckling tales, particularly those in which young women steer the action. *Gillian Engberg*
