Homo Deus: A Brief History of Tomorrow By Yuval Noah Harari

Yuval Noah Harari, author of the bestselling *Sapiens: A Brief History of Humankind*, envisions a not too distant world in which we face a new set of challenges. Now, in *Homo Deus*, he examines our future with his trademark blend of science, history, philosophy and every discipline in between. *Homo Deus* explores the projects, dreams and nightmares that will shape the twenty-first century from overcoming death to creating artificial life. It asks the fundamental questions: Where do we go from here. And how will we protect this fragile world from our own destructive powers. This is the next stage of evolution. This is *Homo Deus*. War is obsolete You are more likely to commit suicide than be killed in conflict Famine is disappearing You are at more risk of obesity than starvation Death is just a technical problem Equality is out; but immortality is in What does our future hold
