Editorial Review

Review

'Professor Clarke sets out to cover every aspect of the theory and practice of corporate governance across the world and succeeds in doing so, adding a set of relevant and riveting case studies for good measure. Taking account of the astonishing rapidity of developments in this field internationally, his book represents a remarkable achievement... It will set a benchmark against which to evaluate and measure progress in the field of corporate governance' *From the foreword by Sir Adrian Cadbury.*

'Professor Clarke has met the significant challenge of offering a substantial overview of the continually changing landscape of corporate governance. Integrating theory and practice, the book's coverage is both comprehensive and authoritative, providing an essential reference point for students, scholars and practitioners' Laura F. Spira, *Professor of Corporate Governance, Oxford Brookes University, UK.*

'How corporations answer calls by shareholders, stakeholders, and governments to be more responsive to ambient societies has to be a central theme in any leading edge corporate governance text. This book does much better than any other in discussing the full range of issues in corporate governance today and in circling the globe to describe the various governance approaches and devices' Douglas M. Branson, *W. Edward Sell Chair in Business Law, University of Pittsburgh, USA.*
