### L.A. Requiem (An Elvis Cole Novel Book 8) By Robert Crais

The day starts like any other in L.A. The sun burns hot as the Santa Ana winds blow ash from mountain fires to coat the glittering city. But for private investigator Joe Pike, the city will never be the same again. His ex-lover, Karen Garcia, is dead, brutally murdered with a gun shot to the head.

Now Karen's powerful father calls on Pike (a former cop) and his partner, Elvis Cole, to keep an eye on the LAPD as they search for his daughter's killer--because in the luminous City of Angels, everyone has secrets, and even the mighty blue have something to hide. But what starts as a little procedural hand-holding turns into a deadly game of cat-and-mouse. For a dark web of conspiracy threatens to destroy Pike and Cole's twelve-year friendship--if not their lives. And L.A. just might be singing their dirge.

### Editorial Review

#### Amazon.com Review

More than 10 years ago, I was shocked to learn that some puerile piece of fluff had won the Edgar for Best Paperback Original, when it was so obvious to me and virtually everyone else in the Western Hemisphere that the award should have gone to *The Monkey's Raincoat*, the book that introduced Elvis Cole, private eye, and is to this day one of the funniest books I've ever read.

The terrific Elvis Cole series has grown through the years, each book better than the last, but nothing prepared me for the quantum leap (yes, it's a cliché, but it belongs here) that Crais has made with *L.A. Requiem*. It's not as funny as the other books in the series, but it's a beautifully plotted detective story, rich with police procedure, and it will keep even the most sophisticated reader at sea right until the end. And that's what elevates this book to the level of literature.

This one is more about Joe Pike, Elvis's silent sidekick, than it is about Elvis. We learn, through Pike's own eyes, how his childhood made him the way he is today. It's also about a friendship so strong that it threatens Elvis's relationship with his beloved Lucy. It is a tender but dark book--a serial killer book--but it doesn't attempt to outgross the other serial killer books on the shelf. It is funny at times and chilling at other times, making it one of the rare books that can't help but linger in the memory long after it's been read and put away. --Otto Penzler

#### From Publishers Weekly

In his eighth book about wise-cracking Los Angeles private detective Elvis Cole, Crais has expanded his narrative reach and broadened his characters' horizons to produce a mature work that deserves to move him up a notch or two into Parker or Connelly country. He's done this by focusing on Joe Pike, Cole's tough and hitherto totally enigmatic partner. It's Pike who breaks in on Cole's reunion with Lucy Chenier, his lawyer/broadcaster lover who has just moved from New Orleans, to ask for Elvis's help in tracking down the missing daughter of a rich and powerful Hispanic businessman. When the girl turns up murdered in Griffith Park, it's Pike who gives a nerdy medical examiner valuable assistance; and when it turns out that the girl's death is linked to several other murders, it's Pike who is charged with killing the chief suspect. Through flashbacks to Joe's past life as an abused child, a highly motivated teenage soldier and an L.A. cop fighting to keep a corrupt partner from destroying his family, we learn more about Pike than we did in the seven previous Cole books. This new focus also allows Crais to keep Elvis's often annoying throwaway lines to a minimum. Although more pruning could have been done with no loss of flavor, the book's scope is wide enough to include many other memorable characters, especially a rough-edged, vulnerable police officer named Samantha Dolan, plus a choice of plausible villains. There may be one too many metaphoric descriptions attempting to link aspects of the L.A. landscape with the moods and deeds of its inhabitants, but overall Crais seems to have successfully stretched himself the way another Southern California writer, Ross Macdonald, always tried to do, to write a mystery novel with a solid literary base.

#### From Library Journal

Self-proclaimed "World's Greatest Detective" and professional Angeleno, Elvis Cole (seen in *Sunset Express*, LJ 3/1/96) must choose between his longtime love, Lucy, and his best buddy, agency co-owner Joe Pike, during a serial murder investigation. When Pike's former girlfriend Karen disappears, Karen's father turns to Pike and Cole for help. But Pike, an ex-cop, still faces the grudge of his former LAPD co-workers, who hold him responsible for the death of his partner. As Cole soon finds, working with the cops may be the

most difficult detective work he faces. When the man who discovered Karen's body is shot to death, a witness places Pike at the victim's home. Now it's up to Cole to solve both crimes and help his friend avoid the death penalty. Elvis Cole fans will love this latest page-turner featuring the fast-talking private eye and his taciturn tattooed partner. Recommended for all public libraries. A Christine Perkins, Jackson Cty. Lib. Svcs., Medford, OR
