Editorial Review

From Publishers Weekly

Nostalgia, entertainment and humor are possible side effects of listening to this audiobook. Burroughs delivers a slew of reflections about both serious and mundane aspects of his life. His style of delivery fluctuates from piece to piece so one is never sure what the theme or moral is until he finishes. When he's not highlighting the idiosyncrasies of humanity or his own eccentricities, he romanticizes life in New York City, plots John Updike's death and expounds upon the love of his partner or pets. Though his performance keeps listener's attention, it's far from stellar. He fluctuates with character accents. He voices all of his women in the same tone and quality. His overemphasis with expletives often detracts because it's not usually necessary; expletives will stand out on their own. His youthful voice does help legitimate the stories in that the experiences shared need vibrancy to imply truthfulness. Light and endearing with the occasional somber thought, this audiobook takes hold of listeners from the beginning and carries them through adventures and mishaps that prove worth the trip.

Augusten Burroughs offers a post-James Frey "dishonesty disclaimer" (*New York Times*) at the beginning of *Possible Side Effects*, a provocation that has reviewers scouring the essay collection for signs of the improbable. Sure enough, there's plenty of material that fits the bill, but critics don't seem to mind the tall tales as long as they're in on the joke. The loudest complaints are that the new book mostly retreads the best-selling *Running with Scissors* (***1/2 Nov/Dec 2002) and *Dry* and that the quality of these "new" tales varies tremendously. Burroughs's knack as a humorist dampens some of the dissatisfaction, but it might be prudent for him to change his shtick for his next book.

Burroughs is the author of the memoir *Running with Scissors* (2002), a "runaway" best-seller, and an equally popular collection of essays, *Magical Thinking* (2004). In light of recent publishing events vis-a-vis truth versus truth-stretching in memoir writing, it is interesting to note the author's prefatory comments in this, his latest collection of memoir-essays. He indicates that some events recounted in the pieces have been "expanded and changed" and that some of the "individuals portrayed are composites of more than one person." What follows is a series of funny, extremely eloquent takes on modern life and Burroughs' own particular responses to life's various stimuli. "Bloody Sunday" begins with a nosebleed on an airplane flight from New York to London and then describes his reluctance to get out and enjoy the sights once there. "The Sacred Cow" is a very sweet story about getting a second bulldog, and now both his dogs, the new one and the older one, are "more precious to me than anything." And "Killing John Updike" finds Burroughs collecting Updike first editions before he dies ("If I was going to spend two thousand dollars on a book about a rabbit, that old man better be dead by morning, or I was going to be furious"). Irreverence done to an amusing turn. *Brad Hooper*
