### Editorial Review

#### Amazon.com Review

Sewing garments and home-decor items does not have to be mutually exclusive; there are certain skills and fields of knowledge peculiar to each, and there are some areas of overlap. Remarkably, this extremely comprehensive, heavily illustrated volume manages to do justice to both apparel and decor techniques, from the rudiments of the sewing machine and other essential equipment to an exploration of fabric types, from taking proper measurements (of people as well as of windows and tables) to learning all the basics as well as more advanced skills for many kinds of sewing: women's wear, including tailoring; activewear, including swimsuits; babies' and children's clothes; window treatments, pillows, bed coverings, and table linens. The section on making custom alterations to store-bought patterns is especially helpful for garment sewers perpetually frustrated in trying to achieve a perfect fit. Novices will find this a very useful reference in understanding the often-cryptic instructions of commercial patterns; experienced sewers should have this guide on hand to help them achieve thoroughly professional results. --*Amy Handy*

#### From the Inside Flap
