**Lectures on Ordinary Differential Equations (Dover Phoenix Editions) (Dover Phoneix Editions)** By Witold Hurewicz

"A rigorous and lively introduction . . . careful and lucid . . ."--*The American Mathematical Monthly*. Excellent hardcover edition. This concise and idea-rich introduction to a topic of perennial interest in mathematics is written so clearly and lucidly, it is well within the reach of senior mathematics students. It covers mainly existence theorems for first-order scalar and vector equations, basic properties of linear vector equations, and two-dimensional nonlinear autonomous systems. Throughout, the emphasis is on geometric methods. Witold Hurewicz was a world-class mathematician whose untimely death in 1956 deprived the mathematics community of one of its leading lights. His contributions to dimension theory, homotopy and other topics are outlined by Professor Solomon Lefschetz in a prefatory article "Witold Hurewicz in Memoriam" included in this volume. Also included is a list of books on differential equations for those interested in further reading, and a bibliography of Hurewicz's published works.

### **Editorial Review**

From the Back Cover

Hailed by *The American Mathematical Monthly* as "a rigorous and lively introduction," this text explores a topic of perennial interest in mathematics. The author, a distinguished mathematician and formulator of the Hurewicz theorem, presents a clear and lucid treatment that emphasizes geometric methods. Topics include first-order scalar and vector equations, basic properties of linear vector equations, and two-dimensional nonlinear autonomous systems.

Suitable for senior mathematics students, the text begins with an examination of differential equations of the first order in one unknown function. Subsequent chapters address systems of differential equations, linear systems of differential equations, singularities of an autonomous system, and solutions of an autonomous system in the large.

Dover (2014) republication of the edition originally published by MIT Press, Cambridge, Massachusetts, 1958.

About the Author

Witold Hurewicz (1904–56) was Professor of Mathematics at MIT for more than 20 years.

### **Users Review**

**From reader reviews:**

**Dorothy Trimm:**

The book Lectures on Ordinary Differential Equations (Dover Phoenix Editions) (Dover Phoneix Editions) make one feel enjoy for your spare time. You should use to make your capable a lot more increase. Book can being your best friend when you getting strain or having big problem along with your subject. If you can make reading through a book Lectures on Ordinary Differential Equations (Dover Phoenix Editions) (Dover Phoneix Editions) to get your habit, you can get far more advantages, like add your capable, increase your knowledge about a number of or all subjects. You could know everything if you like wide open and read a e-book Lectures on Ordinary Differential Equations (Dover Phoenix Editions) (Dover Phoneix Editions). Kinds of book are several. It means that, science book or encyclopedia or other people. So , how do you think about this book?

**Linda King:**

Your reading 6th sense will not betray you, why because this Lectures on Ordinary Differential Equations (Dover Phoenix Editions) (Dover Phoneix Editions) reserve written by well-known writer who knows well how to make book that may be understand by anyone who else read the book. Written inside good manner for you, dripping every ideas and publishing skill only for eliminate your current hunger then you still uncertainty Lectures on Ordinary Differential Equations (Dover Phoenix Editions) (Dover Phoneix Editions)

as good book not just by the cover but also through the content. This is one book that can break don't ascertain book by its handle, so do you still needing a different sixth sense to pick this kind of!? Oh come on your looking at sixth sense already said so why you have to listening to one more sixth sense.

### **Ricky Dotson:**

This Lectures on Ordinary Differential Equations (Dover Phoenix Editions) (Dover Phoneix Editions) is great e-book for you because the content which can be full of information for you who all always deal with world and also have to make decision every minute. This kind of book reveal it data accurately using great manage word or we can declare no rambling sentences in it. So if you are read it hurriedly you can have whole details in it. Doesn't mean it only gives you straight forward sentences but challenging core information with lovely delivering sentences. Having Lectures on Ordinary Differential Equations (Dover Phoenix Editions) (Dover Phoneix Editions) in your hand like keeping the world in your arm, facts in it is not ridiculous just one. We can say that no e-book that offer you world throughout ten or fifteen tiny right but this e-book already do that. So , this really is good reading book. Hello Mr. and Mrs. hectic do you still doubt this?

### **Mary Fix:**

Book is one of source of know-how. We can add our expertise from it. Not only for students but additionally native or citizen want book to know the revise information of year in order to year. As we know those guides have many advantages. Beside we add our knowledge, can bring us to around the world. By book Lectures on Ordinary Differential Equations (Dover Phoenix Editions) (Dover Phoneix Editions) we can take more advantage. Don't one to be creative people? To get creative person must choose to read a book. Simply choose the best book that acceptable with your aim. Don't end up being doubt to change your life with this book Lectures on Ordinary Differential Equations (Dover Phoenix Editions) (Dover Phoneix Editions). You can more pleasing than now.
