.NET Compact Framework 3.5 Data Driven Applications By Edmund Tan

The book walks you through three different real-world mobile applications from head to toe to provide a practical, hands-on experience on how to use .NET CF. It provides you with code snippets (in both VB.NET and C#) from real-world business scenarios. A summary at the end of each chapter explains how these code snippets work together as a part of the larger whole. It also makes use of diagrams to explain core concepts and helps you decide on which design patterns to use in different enterprise application scenarios. This book is written for developers who are acquainted with the basics of .NET Compact Framework and want to create enterprise-level mobile applications. It is for developers who have worked with the .NET CF Framework before but would like to learn how to utilize its advanced features and deploy leaner and faster business applications.

Editorial Review

About the Author

Edmund Tan is the CTO and co-founder of a leading e-forms and workflows solution vendor based in Singapore. He holds more than 8 years of experience building performance-critical .NET e-forms and workflows solutions for smart devices on top of Oracle and Microsoft SQL Server databases for large companies and governmental institutions located in Singapore. Edmund is also a regular public speaker in various conferences held in Singapore and Malaysia on the topic of on-the-go BPM (Business Process Management) hosted on smart device technologies.

Users Review

From reader reviews:

Jacob Roberts:

As people who live in typically the modest era should be up-date about what going on or facts even knowledge to make these people keep up with the era and that is always change and make progress. Some of you maybe will probably update themselves by examining books. It is a good choice for you but the problems coming to you is you don't know what kind you should start with. This .NET Compact Framework 3.5 Data Driven Applications is our recommendation so you keep up with the world. Why, as this book serves what you want and need in this era.

Michael Watkins:

A lot of people always spent all their free time to vacation or perhaps go to the outside with them loved ones or their friend. Did you know? Many a lot of people spent that they free time just watching TV, or playing video games all day long. If you want to try to find a new activity here is look different you can read any book. It is really fun for you personally. If you enjoy the book that you simply read you can spent the whole day to reading a guide. The book .NET Compact Framework 3.5 Data Driven Applications it doesn't matter what good to read. There are a lot of people who recommended this book. We were holding enjoying reading this book. If you did not have enough space to deliver this book you can buy the actual e-book. You can m0ore very easily to read this book from a smart phone. The price is not to cover but this book provides high quality.

Lillian Tobias:

Many people spending their moment by playing outside together with friends, fun activity using family or just watching TV all day every day. You can have new activity to pay your whole day by studying a book. Ugh, do you consider reading a book will surely hard because you have to take the book everywhere? It ok you can have the e-book, having everywhere you want in your Smart phone. Like .NET Compact Framework 3.5 Data Driven Applications which is finding the e-book version. So , try out this book? Let's view.

Megan Jordan:

Reading a guide make you to get more knowledge from that. You can take knowledge and information from a book. Book is written or printed or illustrated from each source in which filled update of news. In this modern era like now, many ways to get information are available for you actually. From media social similar to newspaper, magazines, science book, encyclopedia, reference book, new and comic. You can add your knowledge by that book. Isn't it time to spend your spare time to spread out your book? Or just looking for the .NET Compact Framework 3.5 Data Driven Applications when you necessary it?
